## FIREMEN IN EVIDENCE.

**They Hold Their Annual Review and Make a Favorable Impression.**

### EQUIPMENT IS INSPECTED

**The Hose Race Was Won by Wide Awake Company by a Safe Margin.**

Today Mayor Bell and the members of the city council were given an opportunity to view the efficiency of the city fire department. They witnessed with pride the work of Chief Johnson's men and congratulated themselves on the possession of a volunteer fire department whose members were capable of exhibiting the skill and training of paid men in larger departments.

The firemen's annual review, when an exhibition of the work of the firemen is seen and an inspection of the department's equipment is permitted, occurred this afternoon. Every feature of the occasion had the effect of impressing the city officials and citizens with the efficiency of the men who volunteer their services for the protection of homes and factories. In their natty uniforms, in their fire-fighting clothes, wherever and in whatever conditions they appeared, the impression was the same—that no body of fire-fighters were ever more ambitious or more constant to duty than are those of the Benton Harbor department.

The procession of firemen and the city officials and police left the central station at 3 o'clock. The parade was led by a platoon of police, following which came in the order named, Frazell's band, carriage occupied by Mayor Bell and Aldermen McDonald, Rowe, Volheim, Cole and Butzbach, hose company No. 1, "Tom Benton" fire engine, hose company No. 2, and hose company No. 3.

The procession halted on East Main street to allow of the inspection of the equipment of each company. The captains each had a list of the articles comprised in his company's apparatus and this was submitted to the mayor and councilmen.

The lists showed that the department had a total of 2,300 feet of cotton hose on the wagon and two carts, divided between the companies as follows: No. 1, 1,000; No. 2, 500; No. 3, 800. After the inspection the procession reformed and moved up Pipestone street to Britain and then counter-marching returned to Main where it disorganized.

The hose race between the Morton hose company No. 3 and Wide Awake Hose company No. 2 was run on Water street at 3:30. No. 3 ran first, running 100 yards, making coupling and throwing water in 29 4-5 seconds.

No. 2 ran second and did 100 yards, made coupling and threw water in 28 seconds, making them winners by 1 4-5 seconds and the prize of a silver-plated lantern went to them.

### LAST TRIP.

**It Will be Made by the Steamer Fayette Monday Night.**

The steamer Fayette will make her last trip for the season Monday night. She will go into winter quarters at Chicago. The season with the Fayette has been the best ever experienced by an opposition boat and her owner is much gratified with the experiment.

The line will be operated again next season, the season opening April 1, with two boats capable of carrying passengers. This promise is made by the management of the line this season.

## 680,197 PACKAGES.

**Number of Fruit Packages Shipped from This Port During the Month of September.**

### DOUBLE THAT OF AUGUST.

**Equal Amount of Miscellaneous Freight Shipped In and Out by Steamers.**

According to the books of Deputy Collector S. G. Antisdale, 680,197 packages of fruit and melons were shipped from this port by steamboat during the month of September. This is double the amount shipped in August. The books of the collector also show that during the month the total number of tons of miscellaneous freight shipped from this port was 8,992. The total number of tons received was 8,669.

### THE LOCAL APPLE CROP.

**Robinson's Cider Factory Shows it is Small.**

Anyone who visited the works of the Robinson Cider and Vinegar company last year and will visit the same place now can get an idea of the ratio between the crops of 1896 and 1897. Many days last year the company purchased as high as 11,000 bushels of apples, and so far this year only 3,000 bushels in all have been bought.

The price paid for apples this year is double that of last year and Capt. Robinson hopes to get a larger price for vinegar next year on account of the small apple crop. If the price fails to increase then prosperity won't strike the captain's factory.

### NEW RAILWAY OFFICERS.

**Directors of Eastman Springs Line Elects Them.**

The directors of the Benton Harbor & Eastman Springs street railway held a meeting yesterday in the office of Valentine & Ellsworth and elected officers of the company as follows:

President and treasurer—Seely McCord.

Vice president—Stanley J. Morton.

Secretary—E. C. Hurd.

The proposition of arriving at some amicable settlement with the Big Four railway company relative to the crossing of that company's tracks by the new line, was discussed at length. It is a matter of considerable importance with the company as further work on the line cannot proceed until an adjustment is reached.

### THE TERRIBLE DUST.

**Spectators at the Dowagiac Fair Suffered Yesterday.**

Those from this city and St. Joseph who attended the Dowagiac fair yesterday were pleased with every feature but the impenetrable cloud of dust that hung over the grand stand during the horse racing events. A few dollars, judiciously expended, would have greatly relieved this condition and made it endurable for the spectators, but the few dollars were not expended and the attendants suffered.

The dust was so intense that the occupants of the grand stand could not see the horses finish, and filled with disgust and dust they left their seats before the program was half over. If no improvement has been made in the track the riders in today's bicycle races will have some heavy work to do.

### Chicken Pie Supper

The ladies of the First Methodist church will give a chicken pie supper at the church next Tuesday evening. Supper served from 5 to 7 o'clock. All are cordially invited to the feast.

Menu—Chicken pie, mashed potatoes, gravy, cabbage salad, sliced tomatoes, pickles, jelly, bread, white and brown; cake, chocolate, white and caramel; tea and coffee.

## SWEEPING ASSERTION

### Made by an Expert Witness in the Luetgert Wife-Murder Case on Trial at Chicago.

### STATE BONES A SORT OF JOB LOT.

Did Not Belong to the Same Body Nor Even the Same Animal, Says Dr. Allport, a Professor of Comparative Anatomy in the Northwestern University.—Makes a Mistake in Identifying Some Bones Himself, but Is Positive as to the State's Collection.

Chicago, Oct. 1.—There was but one witness on the stand in the Luetgert trial yesterday, and at the conclusion of the session the state announced that it would in all probability keep him on the stand for the greater portion of today. The witness was Dr. W. H. Allport, the expert who testified for the defense Wednesday that the femur claimed by the state as the femur of a woman is in reality the femur of a hog. The state had prepared a warm cross-examination for him and toward the latter portion of the afternoon session it succeeded in catching him in a trap. Professor Allport, who is one of the professors of the Northwestern university, was not like Professor Dorsey, the state's "bonological" expert, who when asked to identify bones he had not had time to study over, would refuse to give an opinion. Allport was asked to identify a bone not formerly in evidence—one he had never seen before—and he said it was from a monkey. The state lawyer, however, said it was from a dog.

Allport a Good Defense Witness.

The state is bound to break down Allport's testimony, for he made a slashing attack on Dorsey's statements, and he also declared his belief that the alleged temporal bone was a fraud and attempt to manufacture testimony. Dorsey was very sure this temporal bone was human and Allport said it was not a temporal bone at all. So Dorsey sat at the state lawyer's elbow and through the lawyer cross-examined Allport. This was not all Dr. Allport said that was hard on the state theory. He declared that the phalanx from the vat might just as easily come from a lower animal as from a human being. This was another direct contradiction of the state's testimony. During the doctor's testimony Judge Tutthill again took a hand. "We can't spend all morning on lessons in comparative anatomy," said his honor. "This explanation is not called for at this time." Attorney Vincent objected to the remarks of the court and was overruled.

That Alleged Temporal Bone.

With reference to the alleged temporal bone the witness pointed out a spongy mass on one side of the bone, which he declared was never found in a bone from a homo. "Every human bone of this character would, when held up to the sun, show a spot of light. This is absent in this bone," declared the witness. He held the bone in his hand, illustrating his words. Continuing, the witness gave a full dozen other reasons why he was positive the bone was not human. Then he capped the climax and astonished the judge by declaring: "This is not the temporal bone of a human being or of the lower animals."

The judge inquired in an astonished manner: "Do you say this bone is not the temporal bone from the lower animals, either?" "It is not. It is not a temporal bone at all."

WOULD KILL THE WHOLE CASE

If the Defense Can Make the Jury Believe This Statement.

But the statement made by Dr. Allport that was most discouraging to the state if it cannot contradict it successfully was that the state's collection of bones did not come from the same animal and had not all passed through the same process. Attorney Vincent picked up the little fragment from the state's exhibit said to be a portion of a human femur. The witness took it in hand and stated that while it looked like a hog's, it was beyond identification. Luetgert's counsel returned to the big femur, which the witness, in direct contradiction of the state's evidence, had declared unconditionally was from a hog. The doctor was asked how long the animal had been killed and said not in the year 1897, and then came the statement that will clear Luetgert without anything else if it can be maintained.

"State whether by comparison these bones show that they came from one animal and state whether they show that they had been subjected to the same process."

"They did not," was the incisive reply to the double question. "I don't believe."

"I object!" broke in McEwen, but the witness was allowed to continue.

In ringing tones, while the jurors, now thoroughly interested, caught each word, the expert summed up his conclusions. "Here we have seven bones," he said, pointing to the state's exhibit. "The larger portion of the femur—that portion three inches long—and the temporal appear to have been treated to the same process, and appear to be about the same age. The femur shows decided marks of age and a dirty, scaly covering on the outside. There are incrustations on the head of this bone which I do not notice on the other bones. In other words, it is a fact that not only not much has been taken from this bone, but quite a considerable has been added to it."

"The accumulation upon it is a material to me looking like dirt, salts, like animal, possibly vegetable, and even mineral matter. This is a sure indication of age. By no other means can a bone acquire a character of this kind. I think the hog was killed as early as 1895," he declared, and very impressively the expert continued with the startling statement: "The temporal bone seems to have been fused together in some artificial manner. Exhibit 14 (the bit of rib), however, has not been treated in the same way. The bone is fairly perfect. It seems, though, to have been cut or sawed. The metacarpal bones show a brownish discoloration, as is sometimes found in the bones of mound builders. This color comes only from age. It is not a new bone."

"The bone of the rib appears to have

process. In brief, I see no characteristic, no unity, no similarity which would tend to place these bones in the same skeleton. They are different kinds of bones. They have been subjected to different treatments."

The expert paused, again faced his questioner, the jurors sat back in their seats with puzzled looks upon their faces, while Dr. Allport looked confident, positive, and even defiant. He had assailed the very foundation of the state's case.

### MAYORS ORGANIZE PERMANENTLY.

"League of American Municipalities" and the Purpose of Its Being.

Columbus, O., Oct. 1.—By its action yesterday afternoon in the election of a permanent executive secretary the conference of mayors struck the rock which, in the opinion of many of its most conservative and far-seeing members, seriously threatens its possibilities for usefulness, and may wreck it absolutely at the start. B. F. Gilkison, publisher of The City Government, was the recipient of the honor and in the presentation of his name it was declared that if his candidacy should provoke any considerable opposition he would not permit himself to destroy the unity and harmony of the new organization at the outset. Up to midnight, however, Gilkison had not resigned his office.

The objection to Gilkison is that his magazine advocates municipal ownership in an enlarged form, and is hostile to all private corporations.

The gathering adopted a constitution which provides that the name of the mayors' organization shall be the League of American Municipalities. Its objects are the general improvement and facilitation of every branch of municipal administration. Any municipality in the United States or Canada may become a member and on questions of electing officers and selecting the time and place of annual meeting each and every "member" shall be entitled to one vote, on all other questions the vote of the majority of delegates present shall control. Municipalities can send as many delegates as they choose. John McVicar, of Des Moines, Ia., was elected president and Mayor Black, of Columbus, treasurer.

### FEVER IS MAKING PROGRESS.

Yellow Jack Gains a Little in the Stricken Region Each Day.

New Orleans, Oct. 1.—The board of health of the state of Louisiana officially announces the status of affairs in New Orleans as regards yellow fever to be as follows: During the twenty-four hours ended 9 p. m. Sept. 30 there were—cases of yellow fever, 24; deaths, 3; total cases to date, 228; total deaths, 28; total cases absolutely recovered, 80; total cases under treatment, 140. This was as great a number of new cases as on Wednesday.

Mobile, Oct. 1.—The death of the twelfth victim of yellow fever is reported here. There were six new cases, making 74 in all to date.

Clinton, Miss., Oct. 1.—Excitement in Clinton reached fever heat when it was announced that Rev. J. L. Pettigrew, his daughter-in-law, Mrs. Mary Pettigrew, and little grandson had been taken sick with yellow fever.

Edwards, Miss., Oct. 1.—Dr. Dunn, of the state board of health, reports one death from yellow fever yesterday, and twenty-nine new cases.

Biloxi, Miss., Oct. 1.—Things have begun to look more serious here. There was one death Wednesday, and one death yesterday.

### SAGASTA THE COMING MAN.

His Probable Return to Power Is Well Received—Havana Is Anxious.

London, Oct. 1.—A dispatch to The Standard from Madrid says: "The consultations of statesmen and generals are likely to last until Saturday, as Marshal Campos, Senor Sagasta, Senor Pidal, Senor Montero and General Rios cannot reach Madrid before today. The queen regent had long interviews yesterday with the Duke of Tetuan, Senor Cos-Gayon and Senor Elduayen. The last named recommended a Liberal cabinet should the Conservative divisions continue. The prospect of Senor Sagasta returning to power is well received in political and financial circles, and the decision shown by the queen regent in hastening the solution of the crisis is much praised."

Havana, Oct. 1.—There is great anxiety in political and commercial circles to know what is to be the outcome of the cabinet crisis at Madrid. The general opinion is that the Conservatives will be called upon to form the new cabinet. The resignations of General Azcaraga and his colleagues have not materially affected operations on the bourse.

### Town Coal Strike Collapsing.

Des Moines, Ia., Oct. 1.—The strike of the 800 miners in this vicinity for a uniform rate of 85 cents a ton, an advance of from 5 to 15 cents, is practically broken. The Des Moines Coal and Mining company imported fifty miners from near Oskaloosa and put them to work, and several other mines report that from fifty to 100 men have left the strikers and gone back to work, generally accepting a compromise offer of 80 cents a ton.

### Illinois State Fair.

Springfield, Ill., Oct. 1.—Yesterday was "governor's day" at the state fair. It was also "big Thursday," and the spacious grounds were a living, moving sea of humanity. They were so thronged that there was scarcely standing room. Governor Tanner visited the grounds before noon and spent the day there. He was not accompanied by his staff, as it was supposed he would be.

## NO DOUBT ABOUT IT.

Fire Department to be Equipped With a Hook and Ladder Truck.

## ALDERMEN TALK FAVORABLY.

Action Deferred Last Night Because of the Absence of Two Aldermen.

The purchase of a hook and ladder truck for the fire department will be voted next Monday night by the city council. Numerous firemen were present at the council meeting last night expecting that some action would be taken but the absence of two aldermen led Mayor Bell to suggest a delay until all the aldermen were present. The report of the special committee, aldermen Volheim, McDonald and Butzbach and Chief Johnson, that inspected the Babcock Aerial truck, was submitted last night and accepted. The report credited Alderman Butzbach with the ability of getting a price of \$1,975 on a \$2,200 Aerial truck \$500 to be paid on delivery, \$1,000 in one year and the balance in two years.

Alderman Volheim contended that the lives of the eight firemen who perished in the opera house holocaust could have been saved with the aid of an Aerial truck. The alderman explained the workings of the apparatus, showing that the ladder would hold five men at the same time without the aid of a support. He had examined its construction and found it as represented in every particular and declared it to be a very necessary article in any city fire department.

Alderman Rowe proposed that the city turn the "Tom Benton" engine in part payment for a truck. Mayor Bell opposed the proposition. He insisted that so long as the water supply remained inadequate the engine was necessary. And in case of fires in localities where the water mains had not been extended the engine would be available. There apparently is no opposition among the councilmen to the purchase of a truck and favorable opinion on the proposition will probably be taken next Monday night.

The appropriation ordinance was passed as reported by the finance committee last Monday night. The amounts levied raised by tax for the various items follow:

Contingent fund.....	\$ 4,000
Fire department.....	2,000
General street.....	3,400
Canal and bridge.....	1,000
Water meter.....	1,500
Police.....	3,000
Interest and Sinking.....	4,000
Light.....	3,800
Living.....	2,000
School.....	17,000
Total.....	\$41,500

The council closed a contract with the Benton Harbor & St. Joseph electric light company for street lights another year, the contract extending from September 7, 1897 to September 7, 1898. The city agrees to use 24 arc lights of 1,200 candle power at \$88 per light per year. If more are necessary they are to be furnished at the same price, and during the life of the contract the city is prevented from entering into a contract with any other company for electric street lights. Alderman Rowe suggested that this clause was monopolistic in its requirements, but he did not insist on its elimination.

Alderman McDonald, whose pockets were ever bulging with resolutions, offered a resolution that the water mains be extended to McDonald & Packard's addition. He stated that a fire in that locality would spread devastation under the present conditions with no facilities to fight a fire. The resolution was referred to the board of public works. Alderman Volheim called the attention of the council to the practice pedestrians had of using the bicycle paths instead of the sidewalks, especially on Territorial street. Mayor Bell said he would instruct the street commissioner to erect notices forbidding this practice.

### Car Derailed.

A car on the Milwaukee, Benton Harbor & Columbus railway became derailed on Territorial street last evening and for several hours remained an obstruction in the highway. Neither teams or pedestrians could use the street and considerable inconvenience was suffered.

### Judge Coolidge in Danger.

Berrien Springs Era: That man Deam down at Benton Harbor has not yet opened the safe Judge Coolidge ordered him to open. Unless the court quits issuing mandates to Deam it is liable to be declared in contempt.

### Pokagon to Visit Kansas.

Chief Pokagon will leave today for Lawrence, Kansas, to visit the Indian school. On his return he will stop at Chicago and look into the Pottawatomie claim to city property.

## BASKET BALL.

It Will be Played in the High School.

The young ladies of the High school have organized a club to play basket ball. They will be trained by Miss Estlow who is an expert at the game. Of those who will be identified with the club are the Misses Agnes Robinson, Louise Bailey, Zuma Soule, Mildred Sterns and Mable Jeffries. The High school foot ball team is practicing daily and its members are developing considerable skill. The team will soon be in condition for a contest. It is expected that a game with a Grand Rapids High school team will be pulled off within three weeks. Frank Sisson is coaching the team.

NILES, Oct. 1.—The mennonites who have been holding religious services in a tent have been stoned several times within the past few days. Yesterday somebody set their tent on fire and it was destroyed, with all the contents.

## NEW BANK EXAMINER.

Joseph W. Selden of Lansing Appointed.

LANSING, Oct. 1.—A surprise was created here yesterday by the announcement that Joseph W. Selden, deputy secretary of state, had been appointed National bank examiner for Michigan to succeed Austin E. Wing of Monroe.

Mr. Selden says the appointment is a surprise to him and he has not decided whether he will accept the place or not.

## PHISCATOR AND REPORTERS.

The Baroda Gold King Tells His Troubles.

Dowagiac News: Frank Phiscator, the Baroda-Klondike gold king, is one of the most prominent visitors to our city during the fair. Mr. Phiscator is here with a string of race horses, which he has entered in the races. He was sought out by a News reporter today, but evaded all questions. "I have been haunted night and day by newspaper men since my return from the icy north, and I came to Dowagiac bringing a number of my old-time friends with me, for the purpose of a short rest and recreation," said Mr. Phiscator. As an illustration of the manner in which he had been hunted by newspaper men, he related the following: "When I was in Chicago, stopping at the Great Northern hotel, I fairly had to lock myself up to get a moment's quietude. I started to walk from my room to the bath room, and had no more opened the door leading into the hall, than several newspaper men made a rush for me, exclaiming, 'that's him, that's him.' "I got away from them, reached the bath room and was taking my bath when they came to the door and sought to get an interview over the transom."

## NEWS OF THE STATE.

Western Michigan Millers were in session at Kalamazoo yesterday discussing methods for getting more export trade for their flour.

The state auditors have refused to pass bills that bore Governor Pingree's approval in the shape of a rubber stamp. They admit the stamp had been worked on them before they discovered it.

The Michigan state fair this year made a profit of \$1,000.

The old Dolson carriage plant at Charlotte has burned.

The light, dainty cake and biscuit would warrant the small difference in price.

## Guarantee.

Bakers are authorized to give you your money back if you are not satisfied with the quality of the powder.

## THE SIDEWALK ORDINANCE.

Violators to Receive the Attention of the City Council.

The new sidewalk ordinance went into effect yesterday and violators of the same will be the subject of consideration by the city council at its meeting next Monday night. Those who have neglected to rebuild their dilapidated walks with cement as the ordinance requires will be instructed to comply with this requirement and if the request is not heeded within a reasonable time the street commissioner will be given orders to remove the walk and rebuild it and the expense with a penalty of 10 per cent will be taxed against the property owner.

## THE WRECKED PEWABIC.

Six Hundred Tons of Copper Already Secured.

MILWAUKEE, Oct. 1.—The steamer H. A. Root, which has been at work on the wreck of the steamer Pewabic, off Alpena for the last three months, has arrived here with 600 tons of copper that had been recovered from the wreck by means of the Smith diving bell.

Of the copper which the steamer has on board one lump weighs 11,000 pounds, another 5,766, while the remainder is in lumps of from 300 pounds and up.

The copper seems not to have suffered from the water, where it has lain buried for thirty years.

The Pewabic, Director George S. Campbell says, lies on an even keel and the woodwork has rotted to the depth of one-sixteenth of an inch. The machinery is covered with a coating of rust, but not so thickly as was expected. It is said the company is well satisfied with the work of the bell and the expedition will prove a profitable investment.

So far the wreckers have seen nothing of any bodies, but these may be found later, as only a small portion of the upper works has been removed.

The company will place the copper on the market. When the Pewabic sank it was worth 33 cents, now it is worth only 11 cents a pound.

Awful Experience with Heart Disease.—That Dr. Agnew's Cure for the Heart works like magic, and cures is proven by the testimony of Mr. L. J. Law, Toronto, Can. "I was so sorely troubled with heart disease that I was unable for 18 months to lie down in bed lest I smother. After taking one dose of Dr. Agnew's Heart Cure, I retired and slept soundly. I used one bottle and the trouble has not returned. Sold by H. L. Bird and George M. Bell & Co.—5.

### A Noted Lecturer.

Col. John Sobelski, the famous war veteran and temperance advocate, will occupy the pulpit of the Methodist church next Sunday, his morning subject being, "The Life and Character of Moses," evening subject, "The Achievements of the Temperance Reform." The colonel is a great scholar, is logical and eloquent and can entertain an audience as few others can. He has advocated temperance in the United States, England, Scotland, Ireland and Wales. His grandfather, John Sobelski, king of Poland, was a great warrior.

### TO THE PUBLIC.

Because of considerable business in and from Grand Rapids, Indianapolis and Chicago, and the facility with which these places can be reached from the "Twin Cities" I have concluded to locate in Benton Harbor.

As a stranger soliciting a share of your patronage it is but just to you and to myself that I make some mention of my fitness for the work I would undertake. I was bred in and to the healing art, my father, brother and many relatives being physicians. I have attended and hold credentials from leading homeopathic and allopathic medical colleges. For eighteen years I have successfully conducted a large practice. I have held high office in State and National medical societies, and received honorary professional recognition from abroad. I have had considerable hospital experience, am something of a medical writer and author, and have been professor in reputable medical colleges.

These frank statements can be easily verified. If they commend me to your confidence it will give me pleasure to professionally advise and assist healthward all who need and desire my services.

I am prepared to and will practice all branches of medicine and surgery, but because of special research, experience and success in this direction, greatly prefer and particularly invite those suffering from obscure, complicated, delicate, and all chronic or lingering diseases to consult me. Obstinate cases that others have failed to cure are solicited.

My office is at 112 East Main street, one door east of the postoffice.

Respectfully,  
C. EDSON COVEY, M.-D.

THE one objection to the approach of all that is worse than any other is the continued howl of the hoarse-mouthed horn at St. Joseph.

THE annual review of the firemen's year ended in the opera house fire and the killing of twelve firemen. It is hoped that the review today will not have the same sad ending.

BUT suppose Pingree had really been out. It would have killed off all chances of Senator Burrows getting a second term. People would have accused the senator of giving the governor the prominence of a second Charles Ross.

SIX hundred tons of copper have already been taken from the steamer swab, sunk years ago off Alpena. When the boat went down the copper was worth 33 cents a pound, now the market price is 11. The value of copper has fallen to an even greater extent than the price of silver.

THERE may be lots of hardships in a Klondike, there may be hunger and slatons but a good look at Frank Lancaster, the returned gold king, does suggest any of these things. Suffering has left no mark upon him. There is no happier or healthier looking man who comes to Benton Harbor.

It is too bad that the state militia of Michigan was needed to quiet a row in internal society. The Modern Woodmen should unite in an effort to take a head camp away from both Rock Island and Fulton. The ambitious cities of those places have disgraced the name of a worthy order and the members of that order should wipe the dust from Rock Island and Fulton from their names. An ideal place for the headquarters would be Benton Harbor.

The White House store is doing the business nowadays. Their enormous stock and low prices account for it. 619t2

ROYAL BAKING POWDER CO., NEW YORK.

## LOCAL BREVITIES.

REHEARSAL of "The Story of Old  
Glory" at 7:30 tonight.

FRANK Phiscator is at the Dowag-  
iac fair with some fast horses.

SIGNS has been posted on the Terri-  
torial street bicycle path warning off  
pedestrians.

FIFTY cent excursion tomorrow eve-  
ning to Chicago by the steamer City of  
Milwaukee.

A DAUGHTER was born to Mr. and  
Mrs. J. S. Wells, Territorial street,  
last evening.

SINCE the four hour sprinkling law  
went into effect lawns have greatly im-  
proved in appearance.

THE employees on the Benton Harbor  
& Eastman Springs street railway line  
received their pay today.

THE Watervliet cornet band gave an  
excursion about Paw Paw lake on the  
steamer Mary L. Wednesday evening.

CRISP & Barnes have 200 pounds of  
dairy butter which they will sell to-  
morrow. They are doing a very large  
business.

WALTER H. Chambers and Miss Ella  
E. Snyder were married at Niles  
Wednesday. Mr. Chambers is agent  
for the American express company at  
Niles.

The long winter eyenings will soon  
be here and everybody will want a  
bright and entertaining newspaper.  
This want is fully met by the Chicago  
Chronicle.

J. E. DUNBAR has a crow of more  
than usual intelligence in captivity. It  
is as communicative as a parrot with-  
out the characteristic that prompts  
parrots to swear.

NEAR the crossing of the Benton  
Harbor railroad and Territorial street  
there is a defect in the bicycle path  
that should be repaired at once. It  
takes an expert wheelman to ride  
across the spot.

THE repairs in the C. C. Sweet block  
occupied by E. W. Moore, are now go-  
ing rapidly forward. The three stores  
will have a center entrance and the  
plate glass windows will be dropped to  
the sidewalk.

THE Benton Harbor Times, the pa-  
per owned by Mr. Jarvis, had the ill  
luck to break its press while trying to  
grind out too many papers per hour.  
In consequence THE NEWS has been  
doing presswork for the Times this  
week.

PROF. E. E. Barakat, of Damascus,  
will give another entertainment to-  
night at the Christian church, on the  
Holy Land. It will be entirely differ-  
ent from the others. Admission only  
10 cents. This will probably be his  
last lecture in this city.

THE Ciceronian society of Benton  
Harbor college has organized for the  
coming year by the election of the fol-  
lowing officers: President, John Ster-  
ling; vice president, Miss Sophia Ze-  
belle; scribe, Roy Hogue; co-scribe,  
Arthur Strome. The first public ses-  
sion with a literary program will be  
held next Tuesday evening.

"HOB" Woodward has acted like a  
man nursing a grievance ever since  
Harry Plummer snatched a prize from  
him in the Berrien Springs bicycle  
races. Hob's disappointment has  
driven him to challenge Plummer to a  
contest and next Saturday at 10 o'clock  
the two riders will meet at the Broad-  
way track and settle the championship  
question in a half mile race of three-  
heats.

DR. C. E. Covey, prominent in the  
medical profession of Michigan, has  
opened an office at 112 East Main street.  
He has references which recommend  
him highly and indicate a possession  
by him of a broad knowledge of his  
profession. He has an extensive prac-  
tice in Grand Rapids, Detroit and Chi-  
cago and because of the convenience  
of reaching those cities from this place  
he has located here.

THE Berrien Springs Era published  
yesterday says: "By tomorrow night  
the three biggest fills between this  
place and Buchanan will be complete.  
They are the "dry run," on Rufus Van  
Patten's place; the fill at Wilson's  
Creek; and the one at Gazley's mill.  
Over 80,000 yards of material have  
been handled on that end of the line  
this month. Alterations in the line  
are to be made, but the old line will be  
used temporarily and regular trains  
will be run from Benton Harbor to  
Buchanan in a short time."

HUMORS OF THE BLOOD, boils,  
pimples, scrofula sores, are promptly  
eradicated by Hood's Sarsaparilla, the  
One True Blood Purifier, nerve tonic  
and health builder.

HOOD'S PILLS are easy to take,  
easy to operate. Cure indigestion,  
biliousness. 25c.

## FOR SALE OR TRADE

Forty acres of land. Will sell or trade  
for Benton Harbor property. H. B.  
Volheim, Benton Harbor. 618tf

Miller and Hummiston's fall millin-  
ery opening Thursday, Friday and  
Saturday of this week at Martin's  
Palace of Trade, St. Joseph.

Drs. Garratt and Hilborn are located  
at Watervliet.

## PERSONAL MENTION.

—Miss Gertrude Stover returned this  
morning from Chicago.

—H. W. Williams, of the Williams  
transportation company, of South  
Haven, is in the city.

—Prosecuting Attorney Valentine is  
in Buchanan today on business con-  
nected with his office. He will go to Niles  
tomorrow.

—W. R. Batson of Baroda was in the  
city today. Mr. Batson has long been a  
reader of THE EVENING NEWS and  
he says the paper suits him exactly.

—Dowagiac News: Miss Mamie Vuyl-  
steke, of Benton Harbor, arrived in  
the city Wednesday evening and is the  
guest of the Misses Belle Sykes and  
Alice Antisdel.

—E. F. Boss, who has been conduct-  
ing a store in Petoskey during the  
summer months, will return to this  
city tomorrow. He has been very suc-  
cessful in his venture.

—E. W. Callahan, of the Headlight  
Flashes, has returned to the city to re-  
sume work on his publication. He has  
been in Muskegon where 32 pages of  
the 48 page book for that city is print-  
ed.

## STORY OF A WAR SONG.

The Man Who Composed the Music for  
"We Are Coming, Father Abraham."

The man who composed the music  
for Whittier's song, "We Are Coming,  
Father Abraham, Three Hundred Thou-  
sand Strong," is an old and somewhat  
decrepit piano tuner, who carries on his  
business near Windom, Minn. His  
name is A. B. Irving.

One day soon after Lincoln's call for  
300,000 more men, Irving, then a young  
man, was on his way to Defiance, O.,  
from Fort Wayne for the purpose of  
singing at a political and loyal meeting.  
He had considerable reputation as a  
composer and singer and the Republic-  
ans had asked him to come and help  
them. On the way he read the poem,  
which had just been published. Irving  
studied it, formulated a tune, hummed  
it and got the rhythm, and that even-  
ing at the Defiance meeting he sang  
the song for the first time. When he  
had finished, and the last echoes had  
died away, men mounted their chairs  
with wild enthusiasm, swung their  
hats and broke loose in cheers that rang  
with feeling. He sang it again and  
again, and they would scarcely let him  
rest.

The next night he sang the song at  
Fort Wayne, and again aroused the  
same enthusiasm. He wrote out the  
music and sent it to the publisher who  
had handled what he had composed,  
with instructions to publish it on his  
usual terms of royalty. It was publish-  
ed, and inside of a month more than  
40,000 copies had been sold. In a few  
days the publisher failed and Irving  
never received a dollar for the music. —

## HINTS TO BARGAIN SEEKERS.

Business Announcements That Pay  
to Consider.

The Chicago Bargain store occupies  
a full page of THE EVENING NEWS to-  
day in quoting reduced prices on al-  
most everything in its store. The low  
prices will prove of attractive interest  
to every lady in the city.

For tomorrow J. J. Miller will sell  
picnic hams for 6 cents a pound.  
Rowe Brothers have lengthened out  
their list of low prices on meat by add-  
ing spare ribs at 6 cents and other  
items.

Enders & Young are offering some  
wonderful bargains at their closing out  
sale of the Globe Clothing house. On a  
table at the entrance of the store are  
a lot of nobby overcoats of the latest  
cut that they are selling for \$3.75.  
They are determined to close out the  
stock and their prices will do it.

The Enterprise Mercantile company  
will have their grand millinery open-  
ing tomorrow and are prepared to show  
the ladies of the twin cities an un-  
usually fine display of hats that com-  
prise all the latest styles and colors,  
the patterns having just arrived from  
Paris, New York and Chicago.

Our Congressman elgar 5 cents.

A. H. Rowe has some pure grape  
vinegar, it is fine, try a gallon. tf619

Mrs. Ida Parks will have her grand  
millinery opening next Wednesday.

**TWO MICHIGAN PLUMS.**  
President McKinley Remembers Two of the Faithful.  
WASHINGTON, D. C., Oct. 1.—The president today made the following appointments:  
John Quincy Adams, collector of customs for the district of Superior.  
Samuel M. Lemon, collector of internal revenue for 4th district of Michigan.

**TAKE YOUR CHOICE.**  
Conflicting Announcements Sent to The News Today.  
The following conflicting announcements, were sent to THE EVENING NEWS today:  
The W. W. T. Chautauquans will hold their first meeting with Mrs. L. M. Ward Friday, October 8, at 2:30 p. m., with the following program: Roll call responded to by the name of an eminent German; The German Character in politics, by Mrs. I. R. Dunbar; conversation by all the class on Imperial Germany and Imperial Rome; The Social Spirit in America, by Miss Francis Hull; A current event, The Ascent of Mt. St. Elias by Miss Maud Vincent. Members will please remember change of day.  
The first meeting of the "W. W. T." Chautauquans for the year will be held with Mrs. Morley, Britain avenue, Friday, October 8 at 10 a. m. As it is a rally day all members are requested to be on time.

**Another Well at Niles**  
Niles Sun: The board of public works held a very interesting meeting Wednesday night in spite of the fact that the city attorney has almost virtually decided that the board has no legal status, and that their acts are illegal. The board, after allowing bills to the amount of nearly \$500, took up the well question. They decided to commence work at once on another well, to be drilled on the island within a short distance from where the first was put down. If this well pans out as well as the other two more wells will be ordered, making four in all. By that time the board thinks the water supply question will be effectually settled.

**Farmers Fighting Fires**  
Niles Daily Sun: Frightened farmers residing east of Niles are fighting bravely against the flames which are threatening their homes. A local physician who had occasion to make a trip out on the Edwardsburg road reports that the entire strip of marsh land beginning at a point two miles south east of Niles, on the Edwardsburg road, and extending east to Barron lake, is one mass of flames. At night the flames can be seen for miles and the cloud of smoke which at present hangs over the city comes from the burning marsh land.

Mrs. Frazell will give free instructions in embroidery work Tuesdays of each week until Nov. 1. 616tf.

Natural laws govern the conduct of brute society. But that the actions of the lower animals are ever prompted by a sense of duty is not only extremely hypothetical, but altogether doubtful. The hen has strong maternal affection, but that she has the least idea of the virtue of that affection any more than of the virtue of doing good for evil is in the extreme conjectural. It is often hard and even impossible to account for the likes and dislikes of animals. The hen will sometimes destroy certain of her brood and the sow devour her own offspring. Much of the cruelty is practiced upon the brutes for the lack of thought that they are not morally responsible. They are treated as if they are conscious of wickedly selfish acts. I once saw some men looking at a drowning mouse in a pail of water. I rebuked them, and one of them—a man perhaps 40 years old—turned to me and said, "The mouse deserves it." Why deserved it? Pray tell us. Shall we say it was conscious of the sin of thieving? Others may try to view it in that way. I do not. I knew another man who would hold rats with a tongue and roast them alive in the fire. If he could not prove that they deserved their torture, he certainly wished to believe they did. If we recognize a Creator, is it not most rational to suppose that he has created the brutes morally irresponsible and would have us thus regard them, that our inclination to torture them would be held in restraint?—Forest and Stream.

**Where a Man Must Speak Up.**  
"I had occasion the other day, for the first time," said a sober minded citizen, "to go up high in one of the modern tall buildings. I called on a man in the seventeenth story. It certainly was tremendous the way they hoisted us up that shaft, with a smooth start and easy stops and lightning between. But the most impressive thing about the trip was this: A man who got on where I did, at the ground floor, and who wanted to get off at the tenth floor, said 'Tenth,' as it seemed to me, the instant we started up, but the elevator man said: 'This is the twelfth. We'll stop going down.'"  
"If there is a place on earth where a man needs to speak up, it appears to be in the modern elevator car."—New York Sun.

**London Architecture.**  
Not long ago an English architect was heard to make a curiously suggestive remark. Conversation had turned upon the manifold dangers to which we expose ourselves by traveling in railway carriages. "The great rule," said this architect, "is never to look out of the window until you are a good 30 miles from London. Otherwise you risk seeing the Crystal palace."
